The company had a healthy flow of orders for export as well local sales during the year although there were uncertainties abound due to havocs of COVID-19 all over the world. Despite the closure of markets and travel restrictions, the demand of basic textiles continued to flow into Pakistan. The business environment during period under review has been very challenging due to massive fluctuations in exchange rate, surging prices of energy and other related commodities.

The Company installed a solar power system of 437 KW at its towel unit to reduce the energy cost which also helped in mitigating our carbon footprint. The Company successfully added a new business segment last year with commercial dyeing of knit fabric for garment exporters. We have also started exporting Knitted fabrics and will continue to expand in this sector. We will continue to develop capacity in this product line with internal generation of funds. The natural fit would be to get into export of garments which we are committed to start by the beginning of next financial year.

Capital Expenditures

The Company invested PKR 278.91 million in fixed capital expenditure (CAPEX) which is 30% above last year's CAPEX. Investment of PKR 210 million out of PKR 278.91 was made with cash generated from business operations. This BMR covers both modernization of existing equipment and induction of new equipment like yarn and fabric dyeing machines, coal boiler, 437 KWH solar power plant and stitching machines, etc. This shows the Company's commitment to broaden, upgrade and modernize its manufacturing facilities on regular basis.

Working Capital Management

Current ratio for the period stands at 1.11 (2020: 1.10) along with long term rating of BBB+ and short-term rating of A-2 provided by VIS Credit Rating Company Limited which shows the Company's ability to meet its long as well as short term obligations. The Company utilized its working capital in most efficient way to achieve more than 40% growth in sales revenue. The Company earned EBITDA of PKR 539.36 million as compared to PKR 246.68 in corresponding period last year. EBITDA to sale percentage was 8.80% as compared to 5.70% last year. The strong EBITDA reflects the Company's ability to carry out BMR and to continue financing of working capital requirements.

Dividend

Keeping in view the Company's needs and future ability of cash generation, the Board of Directors of the Company is pleased to recommend 5% dividend for the year ended June 30, 2021 (June 30, 2020: 0%).

The Company maintains a positive stream of earning per share (EPS) which shows effectiveness of management's strategy in order to enhance the shareholders' value. The earning per share (EPS) stands at PKR 5.08 for the period ended June 30, 2021 as compared to PKR 0.93 corresponding previous year.

General market review and future prospects

The period under review affected by second and third waves of coronavirus pandemic globally and the world experienced frequent lockdowns and restrictions of movement, which drastically impacted the global supply chain infrastructure. Vaccination process is in full swing across the globe and the World is opening economic activities now with enforced SOPs. The Government of Pakistan implemented the vaccine drive very successfully even for the workers of remotely located factories.

Local yarn prices consistently increased due to shortage of cotton output domestically and firm price trend worldwide. The industry had to depend on imported cotton and yarn to a large extent. We are expecting a better cotton crop for the current year. Meanwhile the international prices of cotton have touched the highest mark for the last ten years. A massive, unexpected, increase of ocean freights, in last two quarters of the period under review, created some uncertainty which continues to jeopardize the supply chains worldwide. We expect that the volatility of prices in energy and commodities will be a drag on the value added export sector for the coming quarters.

The Government continued the policy of regionally competitive prices of energy for export-oriented industries for current financial year. This is some relief in the short run but a constant threat for the energy intensive nature of the industry going forward. The industry needs a medium to long term policy about energy prices to harness the growth potential effectively.

Pakistan economy has shown significant signs of economic recovery. The Government is also committed to continue to support economic activities especially for textile export industry. This can be achieved by continuation of strategies and policies of ease of doing business in Pakistan.

The Company continued to undertake following social activities being a responsible corporate citizen.

The plantation drive is an ongoing effort and during the year we have managed to plant 2000 trees in the factory and surrounding area. We are running a fully functional effluent treatment plant which works on biological process with the minimum use of chemicals. Further, environment friendly solar power plant has also been installed to reduce the carbon emissions.

The company is active participant of Zero Discharge of Hazardous Chemicals (ZDHC) initiative and continues to update its chemical inventory according to the Manufacturing Restricted Substance List (MRSL) guidelines.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Board Audit Committee. We have not carried out procedures to assess and determine the Company's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2021.

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTER

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the financial statements of the current period. This matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

S.NO	Key audit matter	How the matter was addressed in our audit
1.	Control environment relating to the financial reporting process and related IT systems	
	<p>The IT control environment relating to the financial reporting process and the application controls of individual IT systems have an impact on the selected audit approach.</p> <p>As the financial statements are based on extensive number of data flows from multiple IT systems, consequently the financial reporting control environment is determined as a key audit matter.</p>	<p>Our audit procedures included evaluation of the financial reporting process and related control environment, as well as testing of the effectiveness of controls including general IT controls. Our audit procedures focused on testing the reconciliation and approval controls as well as on evaluating the administration of access rights.</p> <p>Our audit procedures extensively consisted of several substantive procedures as well as data analysis relating to the most significant balances on the profit and loss account and statement of financial position.</p>

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND BOARD OF DIRECTORS FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors is responsible for overseeing the Company's financial reporting process.

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Based on our audit, we further report that in our opinion:

- proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- the statement of financial position, the statement of profit or loss, statement of comprehensive income, statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- Zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditors' report is Talat Mehboob.

Notes to the Financial Statements

For the year ended June 30, 2021

Principal actuarial assumptions used in the actuarial valuation carried out as at June 30, 2021 are as follows:

- | | |
|--|----------------------|

Free - hold land, building on free - hold land and plant & machinery are stated at revalued amounts less subsequently accumulated depreciation and impairment, if any.

Cost of property, plant and equipment consists of historical cost, borrowing costs pertaining to the erection and other directly attributable costs of bringing the assets to their working condition or for commencement of commercial production.

Depreciation on all the items of property, plant and equipment except for free - hold land is charged to income applying the reducing balance method at the rates specified in Note 14.

4.3 Intangible assets

Intangible assets (including computer software) acquired by the Company are stated at cost less accumulated amortization and impairment losses, if any.

Subsequent expenditure on capitalized intangible assets is capitalized only when it increases the future economic benefits embodied in the specific assets to which it relates. All other expenditures are expensed as incurred.

Stock in trade is valued at lower of cost and net realizable value (NRV), except waste which is valued at net realizable value. Materials in transit are stated at cost comprising invoice value plus other charges paid thereon.

Cost of major components of stock in trade is determined as follows:-

4.11 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

Notes to the Financial Statements

For the year ended June 30, 2021

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under IFRS 15.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments).
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments).
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments).
- Financial assets at fair value through profit or loss.

Financial assets at amortised cost (debt instruments)

The Company measures financial assets at amortised cost if both of the following conditions are met:

- i) The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the EIR method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Company's financial assets at amortised cost includes long term deposits, trade debts, trade deposits and other receivables.

Financial assets at fair value through OCI (debt instruments)

The Company measures financial assets at fair value through OCI if both of the following conditions are met:

- i) The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling, and
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the Financial Statements

For the year ended June 30, 2021

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value change recognised in OCI is recycled to profit or loss.

Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under IAS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes listed equity investments which the Company had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are also recognised as other income in the statement of profit or loss when the right of payment has been established.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Company's consolidated statement of financial position) when:

- i) The rights to receive cash flows from the asset have expired, or
- ii) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement? and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the

Notes to the Financial Statements

For the year ended June 30, 2021

asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Company considers a financial asset in default when contractual payments are significantly past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Off-setting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle either on a net basis, or to realize the asset and settle the liability simultaneously.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Notes to the Financial Statements

For the year ended June 30, 2021

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognized in the statement of comprehensive income. Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. The Company has not designated any financial liability as at fair value through profit or loss.

Financial liabilities at amortized cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective interest rate (EIR) method.

Gains and losses are recognized in statement of comprehensive income when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of comprehensive income.

This category generally applies to the liabilities as disclosed in Note 35.

4.12 Capital work in progress

Capital work in progress is stated at cost less impairment, if any. Cost of property, plant and equipment consists of historical cost, borrowing costs pertaining to the erection/construction period and other directly attributable costs of bringing the assets to their working condition or for commencement of commercial production. All expenditure connected with specific assets incurred during installation and construction period are carried under capital work in progress. These are transferred to specific assets as and when these assets are available for use.

4.13 Foreign currency translation

These financial statements are presented in Pak Rupees, which is the Company's functional currency. All monetary assets and liabilities denominated in foreign currencies are translated into Pak Rupees at the rates of exchange prevailing at the balance sheet date, while the transactions in foreign currencies during the year are initially recorded in functional currency at the rates of exchange prevailing at the transaction date. All non-monetary items are translated into Pak Rupees at exchange rates prevailing on the date of transaction or on the date when fair values are determined. Exchange gains and losses are recorded in the profit and loss account.

4.14 Revenue recognition

Revenue from different sources is recognized as under:

Local sales are recognised as revenue when invoiced with the transfer of control of goods, which coincides with delivery.

Export sales are recognised as revenue when invoiced with the transfer of control of goods, which coincides either with the date of bill of lading or upon delivery to customer or its representative, based on the terms of arrangement.

Export rebates are accounted for on accrual basis. Investment and interest income is recognized on time proportion basis.

Notes to the Financial Statements

For the year ended June 30, 2021

Dividend income on ordinary shares is recognized when the right to receive dividend has been established.

Capital gains or losses arising on sale of investments are taken to income in the period in which they arise.

Rebate income is recognized on accrual basis.

4.15 Taxation

Current

Provision for current tax is based on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year, if enacted. The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in previous years arising from assessments framed during the year for such years.

Deferred

The Company recognises deferred tax liability on surplus on revaluation of property, plant and equipment which is adjusted against the related surplus.

4.16 Impairment

Financial assets

A financial asset is considered to be impaired if objective evidence indicate that one or more events had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as a difference between its carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of available for sale financial asset is calculated with reference to its current fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

Non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each balance sheet date to determined whether there is any indication of impairment. If such indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognized wherever the carrying amount of the asset exceeds its recoverable amount. Impairment losses are recognized in profit and loss account. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determined the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit and loss account.

4.17 Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events and it is probable that out flow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. However, provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

4.18 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash at banks on current, saving and deposit accounts and other short term highly liquid instruments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in values.

Notes to the Financial Statements

For the year ended June 30, 2021

4.19 Related party transactions

Transactions with related parties are priced on arm's length basis. Prices for these transactions are determined on the basis of comparable uncontrolled price method, which sets the price by reference to comparable goods and services sold in an economically comparable market to a buyer unrelated to the seller.

4.20 Dividend and other appropriations

Dividend and appropriation to reserves are recognised in the financial statements in the period in which these are approved.

35. FINANCIAL ASSETS AND LIABILITIES

The carrying values of the financial assets and financial liabilities approximate their fair values. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Fair value hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Notes to the Financial Statements

For the year ended June 30, 2021

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

Level 1 : Fair value measurements using quoted (unadjusted) in active markets for identical asset or liability.

Level 2 : Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 : Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

The Board of Directors has overall responsibility for the establishment and oversight of Company's risk management framework. The Board is also responsible for developing and monitoring the Company's risk management policies.

Concentration and management of credit risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counter parties fail completely to perform as contracted.

For trade receivables, internal risk assessments process determines the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal and external ratings in accordance with the limits set by the management. The utilization of credit limit is regularly monitored. Accordingly, the credit risk is minimal and the Company also believes that it is not exposed to major concentration of credit risk.

Concentration of the credit risk arises when the number of counter parties engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligation to be similarly effected by the changes in economic, political or other conditions. The Company believes that it is not exposed to major concentration risk.

فی حصص آمدنی

کمپنی نے فی حصص آمدنی (EPS) کا مثبت سلسلہ برقرار رکھا ہے۔ جو کہ اپنے حصص داران کی قدر بڑھانے کے لیے کمپنی انتظامیہ کی بہترین حکمت عملی کے اثر کو ظاہر کرتا ہے۔ گذشتہ سال فی حصص آمدنی (EPS) 0.93 کے مقابلہ میں 30 جون 2021ء کے لیے 5.08 ہے۔

مارکیٹ کا عمومی جائزہ اور مستقبل کے امکانات

عالمی سطح پر کورونا وائرس وبا کی دوسری اور تیسری لہروں کی وجہ سے زیر جائزہ مدت متاثر ہوئی۔ اور دنیا کو بار بار لاک ڈاؤن اور نقل و حرکت کو محدود کرنے کی پابندیوں کا سامنا رہا۔ جس نے عالمی سپلائی چین کے بنیادی ڈھانچے کو شدید متاثر کیا۔ دنیا بھر میں ویکسینیشن کا عمل زوروں پر ہے اور دنیا کو رونا ایس اوپیز پر عمل کرتے ہوئے اب اپنی معاشی سرگرمیاں کھول رہی ہے۔ حکومت پاکستان ویکسینیشن مہم پر کامیابی سے عمل پیرا ہے۔ جس میں دور دراز کے علاقوں میں واقع کارخانوں کے مزدوروں کو بھی ویکسینیشن لگانا شامل ہے۔

کپاس کی پیداوار میں کمی کی وجہ سے مقامی سوت کی قیمتوں میں مسلسل اضافہ ہوا ہے۔ اور دنیا بھر میں سوت کی قیمتوں میں اضافہ کا رجحان ہے۔ صنعت کو بڑے پیمانے پر درآمد شدہ کپاس اور سوت پر انحصار کرنا پڑا۔ رواں سال میں ہم کپاس کی فصل کی بہتر پیداوار کی توقع کر رہے ہیں۔ دریں

معزز اراکین

آپ کی کمپنی کے ڈائریکٹرز 30 جون 2021ء کو اختتام پذیر مدت کے لیے آپ کے سامنے خود مختار آڈیٹرز کی غیر جانب دار رپورٹ کے ساتھ آڈٹ شدہ سالانہ رپورٹ پیش کرتے ہیں۔

مالی جائزہ

کمپنی کی خالص فروخت 30 جون 2021ء کو اختتام پذیر مدت کے لیے، 41.67 فیصد اضافے کے ساتھ 6.13 ارب روپے تک بڑھ گئی ہے۔ جو کہ گذشتہ سال اسی مدت میں 4.33 ارب روپے تھی۔ کمپنی نے 30 جون 2021ء کو اختتام پذیر مدت کے لیے مجموعی منافع 807.55 ملین روپے اور 302.08 ملین روپے خالص منافع حاصل کیا۔ جب کہ گذشتہ سال اسی مدت میں کمپنی کا مجموعی منافع بالترتیب 401.73 ملین روپے اور خالص منافع 55.07 ملین روپے تھا۔ طویل مدتی قرضوں کی ادائیگی کی وجہ سے، مالیاتی لاگت میں گذشتہ مدت کے تقابل میں، زیر جائزہ مدت میں 7.92 فیصد کمی واقع ہوئی ہے۔ مالیاتی خلاصہ درج ذیل ہے۔

رواں سال کے دوران کمپنی کے پاس برآمدات کے ساتھ ساتھ مقامی فروخت کے آرڈرز بھی کافی تعداد میں موجود تھے۔ اگرچہ کرونا وائرس (Covid-19) کی تباہ کاریوں کی وجہ سے، پوری دنیا غیر یقینی صورتحال کی لپیٹ میں تھی۔ مارکیٹوں کی بندش اور سفری پابندیوں کے باوجود ٹیکسٹائل کے شعبے کی بنیادی ضروریات کی مانگ کا رخ پاکستان کی جانب رہا۔ کرنسی ایکسیچن ریٹ میں بڑے پیمانے پر اتار چڑھاؤ، توانائی اور دیگر متعلقہ اشیاء کی قیمتوں میں حیران کن اضافے کی وجہ سے، زیر جائزہ مدت کے دوران کاروباری ماحول بہت مشکل رہا۔

کمپنی نے اپنے ناول یونٹ پر 437 کلو واٹ کاسٹمنس توانائی کا نظام نصب کیا ہے۔ جو توانائی کی لاگت کو کم کرنے کے ساتھ ساتھ، ہمارے ماحول میں کاربن کے اثرات کو کم کرنے میں مددگار ثابت ہوتا ہے۔ کمپنی نے اپنے کاروبار میں، گذشتہ سال سے ایک نئے شعبے کا کامیابی سے آغاز کیا ہے جس میں کپڑے کے برآمد کنندگان کے لیے بنے ہوئے کپڑے کو رنگنا شامل ہے۔ ہم نے خود بھی بنے ہوئے کپڑے کی برآمد شروع کر دی ہے۔ اور اس میں مزید توسیع کو جاری رکھیں گے۔ ہم اپنے خود ساختہ فنڈز کے بل بوتے پر اس پراڈکٹ میں ترقی کی صلاحیت میں اضافہ کو جاری رکھیں گے۔ گارمنٹس کی برآمد کے کاروبار میں مکمل طور پر حصہ لینے کے لیے ہم اگلے مالی سال کے آغاز میں پرعزم ہیں۔
